

Extra lightweight this Unisex adult sized folding bike is the ultimate in portability

The Puma, like its sister bike the Lynx, was designed for compactness without any sacrifice of power, and it achieves it superbly. The small 16" wheels and the smaller frame result in extra weight saving and additional natural torque.

Weighing in a mere 20.5kg the Puma is no lightweight when it comes to performance, its 200W Intelligent brushless motor offers a speed up to 15mph without pedalling. Independent tests have shown that with pedalling the Puma's 24V Li-Ion battery will take you up to 22 miles on a single full charge.

With an adjustable saddle height range of 70 - 89cm and adjustable handlebars the Puma can easily accommodate most adults making it a true all-rounder for him and for her.

- | Lightweight Folding Frame
- | Throttle
- | Fold-back Pedals
- | 16-22 Mile Powered Range
- | 2 Year Warranty*
